The **Ergodyne Chill-Its Lightweight Phase Change Cooling Vest Ice Packs (4-Pack)** are made to be inserted into model 6260 Lightweight Phase Change Cooling Vest to keep workers cooler, safer and more productive. The phase change cooling material in the packs is 100% biodegradable and maintain a 18° C temperature for up to 2 hours when activated. These packs are designed to be 30%-60% lighter weight than other cooling vests on the market.

HOW TO USE

Purchase the lightweight vest with packs or purchase the Lightweight Vest separately. There are many ways to activate your cooling vest. Simply place the two removable packs in a cooler of ice water for 5 minutes; freezer for 8 minutes; refrigerator for 12 minutes; or near an air conditioner for 1 hour. Then place the recharged cooling packs in the vest pockets for hours of cooling.

HOW TO CLEAN

The cooling pack should be washed by hand with a mild detergent and warm water. Dry with a paper towel or cloth. DO NOT machine wash or machine dry. Ideal for workers in need of cooling relief but aren't able to use an evaporative cooling option.
