Heat & Hydration
Chill-Its 6665 Evaporative Cooling Vest

M	L	XL	2XL	3XL
91-97cm	97-107cm	107-117cm	117-127cm	127-137cm

- » 100% nylon, quilted nylon outer layer and zip front closure
- » Soak the garment in water for 2-5 minutes and this soaks into the fabric and keeps the user cool for up to 4 hours
- » Polymer-embedded cooling technology quickly activates for up to four hours of relief from the heat
- » 100% quilted nylon with mesh side panels for ventilation
- » Water-repellent liner and black cotton-poly elastic trim
- » Lightweight, durable and washable

The **Chill-Its 6665 Evaporative Cooling Vest** is made with an advanced polymer-embedded fabric to provide workers with immediate core cooling relief from the heat. This lightweight cooling vest is made of comfortable and durable quilted nylon exterior with mesh side panels for ventilation and stretch. For best results, wear this body cooling vest over a t-shirt. A water-repellent liner keeps the interior of the vest as dry as possible when activated, though wearers should expect to feel some dampness/wetness. Heat-related illness continuously ranks among the top causes of worksite accidents and fatalities. Evaporative cooling technologies such as embedded polymers are a simple, effective and comfortable solution for heat stress prevention. Similar to how sweat cools the body, evaporative technologies use an external water source to draw heat away—helping to regulate body temperature while providing cool relief. When activated, this cooling safety vest is comfortable and refreshing for even the hottest days of the year.

UP TO 4 HOURS OF COOLING

WATER ACTIVATED

BREATHABLE COMFORT

100% quilted nylon with mesh side panels for ventilation

LIGHTWEIGHT EVAPORATIVE COOLING

Up to four hours of cooling
REQUIRES AIRFLOW

Polymer-embedded fabric easily activates for cool relief on hot days

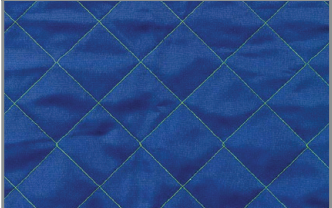

QUICK ACTIVATION

Reusable: Re-wet to activate

Soak vest in water for 2-5 minutes to activate cooling technology

WATER-REPELLANT LINER

Simple, effective and comfortable solution for heat stress prevention

 **DIMENSIONS**
Chest size ranges from 91cm-137cm
