

## HEAT & HYDRATION

### DRY & COMFORTABLE

Exclusive dry technology keeps wearer completely dry and comfortable

### ANTI-MICROBIAL TREATMENT

Cooling material is treated with an anti-microbial that prevents mold growth

### WIDE VARIETY OF USES

Reduces the effect of heat exhaustion and fights fatigue while working or playing in the summer outdoor heat

### MACHINE WASHABLE

Do not clean the inside reservoir

**The Ergodyne Chill-Its 6685 Dry Evaporative Cooling Vest** offers immediate dry cooling relief that lasts up to three days. The exclusive dry evaporative technology keeps the wearer completely dry and comfortable as opposed to other cooling vests on the market that require soaking. Constructed with highvisibility industrial grade quality nylon to perform in the toughest conditions. Design features V-neck with front zipper closure, and the mesh side panels provide additional ventilation and stretch for a comfortable fit. Not to be worn underneath thick or heavy layers of clothing, this body cooling vest needs airflow in order to activate and for the evaporation process to take place. Do not clean the inside reservoir. Cooling material is treated with an anti-microbial that inhibits mold growth. Always keep cap closed to maintain vest's effectiveness. This evaporative cooling vest is perfect for anyone in need of instant cooling relief while working in warm temperatures.
