Stop Workplace Strains & Sprains

Proflex® 342 Injected Gel Knee Pads – Extra Long Cap

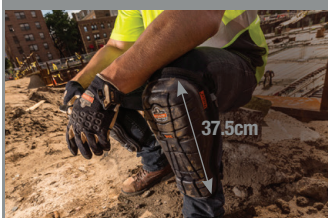

- » **EXTRA LONG CAP** – Extends from knee to shin for maximum protection and stability
- » **ALL-DAY GEL COMFORT** – Injected gel and PU foam cushions knees on rough surfaces
- » **NON-SLIP** – Rubber cap grips floors
- » **BREATHABLE** – Perforated neoprene strap improves airflow to prevent sweat behind knees
- » **STAYS IN PLACE** – Hook and loop closure and locking buckle prevent knee pads from sliding around
- » **ADJUSTABLE** – Stretchable neoprene with hook and loop closure plus elastic strap on bottom easily adjust for custom fit
- » **PATENTED**

The **Ergodyne Proflex 342 Injected Gel Knee Pads** feature an extra-long cap that extends down the shin for maximum protection and stability on rough surfaces. For all-day comfort and support, these pads are cushioned with injected gel and PU foam. The top neoprene strap is perforated to improve airflow and prevent sweat behind the knees.

The non-slip rubber cap securely grips floors for added stability. The hook and loop and buckle closure securely attach to keep knee pads from sliding around or coming undone. Stretchable neoprene and elastic leg straps easily adjust for a custom fit on a variety of leg sizes.

Ideal for workers wanting extended knee protection on a variety of worksites, including construction, HVAC, flooring, landscaping and more.

EXTRA LONG FOR MAXIMUM COVERAGE & PROTECTION

Extends from knee to shin

NON-SLIP RUBBER CAP

Hard flat rubber cap grips, stabilises and protects on rough surfaces

HEAVY-DUTY INJECTED GEL

Injected-gel and PU foam cushions and supports knees for all-day comfort

SECURE FIT

Buckles and adjustment hook and loop straps make for a customised fit
