Compatible with Squids 3103
Accessory Kit Detachable
Loops - SKU# 19068

- » Approved to the ANSI/ISEA 121-2018 standard
- » Shock absorbing properties reduce the dynamic force on the body or other anchor point if drop occurs
- » Durable 1680 denier polyester elastic blended webbing extends from 96-122cm
- » Low profile lightweight design reduces snag hazards and added weight
- » Anodized aluminum alloy carabiner with captive eye
- » Modular connecting buckle for exchanging tools
- » High strength 3-ply nylon stitching secures connecting ends

The **Squids 3102F(x) Detachable Single Carabiner Tool Lanyard** is a shock absorbing tool lanyard with carabiner on one end and detachable loop on the other end. Designed and tested to prevent falling objects and reduce the force your body sees if a drop occurs by absorbing the energy transmitted through the tool lanyard. By reducing the shock load this design prevents the tool from pulling the user down with it protecting those above as well as those below. Compatible with Squids Tool Tails.

TESTED TO BE TRUSTED

All lanyards are rigorously tested and third party certified to a 2.3kg maximum capacity with a 2:1 safety factor to prevent falling objects. When working at heights, choosing the best tool tethering equipment matters because there are no second chances.

DROPPED OBJECTS STANDARD 121-2018

The ISEA/ANSI Dropped Objects Standard provides guidelines to protect workers from hazardous dropped objects. It outlines requirements for personal protective equipment, procedures, and systems to reduce the risk of injury from falling objects.
