SKULLERZ®
HEAD + PROTECTION

8950 Bump Cap Hat

- » **LOW-PROFILE HEAD PROTECTION** – Guards against bumps, scrapes, bruises and other minor head injuries
- » **REMOVABLE BUMP CAP INSERT** – Impact-resistant ABS plastic shell with foam lining for comfortable protection
- » **BREATHABLE** – Flanged design maximizes airflow for all-day wear
- » **REFLECTIVE PIPING** – Keeps workers safe and seen
- » **TESTED & APPROVED** – Meets EN 812-2012 standard for industrial bump caps
- » **MACHINE WASHABLE** – Remove bump cap insert before washing

Designed for the fearless professionals who fearlessly venture into tight, confined spaces where head-knocking hazards lurk but traditional hard hats just won't do the trick, Ergodyne presents the **Skullerz® 8950 Bump Cap Hat**. This hat offers both comfort and style, while boasting an impact-resistant shell that shields against minor head injuries, such as bumps, scrapes, and bruises.

The detachable bump cap insert is ingeniously engineered with a flanged design and a foam cushioning liner, ensuring not only protection but also breathability and utmost comfort.

This EN 812-2012 compliant safety bump cap provides essential head protection without the bulk of conventional hard hats. It's the preferred choice for professionals in low-ceiling settings with potential bump hazards, including mechanics, airline baggage handlers, and workers in factories and in-home services, where traditional hard hats aren't needed but head injury risks from low obstacles are common.

DURABLE SHELL INSERT

Impact-resistant ABS plastic with comfortable foam lining

LOW-PROFILE HEAD PROTECTION

Guards against bumps, scrapes and bruises when working in cramped spaces

REFLECTIVE ACCENTS

Keeps wearers safe and seen

BREATHABLE

Flanged design maximises airflow for all-day wear

HEAD ♦ PROTECTION

8960 Bump Cap Hat with Lighting

- » **LOW-PROFILE HEAD PROTECTION** – Guards against bumps, scrapes, bruises and other minor head injuries
- » **BUILT-IN LIGHTING** – LED lights under brim emit 48 lumens for 30 hours of hands-free visibility in the dark (four CR2032 lithium-ion batteries included)
- » **REMOVABLE BUMP CAP INSERT** – Impact-resistant ABS plastic shell with foam lining for comfortable protection
- » **REFLECTIVE PIPING** – Keeps workers safe and seen
- » **TESTED & APPROVED** – Meets EN 812-2012 standard for industrial bump caps
- » **HAND WASH** – Remove batteries and bump cap insert

Ergodyne's Skullerz® **8960 Bump Cap Hat** with Integrated LED Lighting is designed for professionals who work in tight spaces. It combines style, comfort, and safety with built-in micro-LED lights and an impact-resistant shell to protect against minor head injuries.

The LED lights under the brim emit 48 lumens, offering hands-free visibility in the dark for up to 30 hours with the included CR2032 lithium-ion batteries. The removable bump cap insert provides comfort with its flanged design and foam cushioning liner, and you can choose from two different brim lengths for unobtrusive wear in cramped spaces. The nylon hat also features reflective piping for safety in low-light conditions. This safety bump cap meets EN 812-2012 standards and is ideal for professionals working in spaces where head protection is needed but traditional hard hats are impractical. It's a perfect choice for mechanics, airline baggage handlers, factory workers, and others who don't require a full hard hat but face potential head hazards in their work environments.

DURABLE SHELL INSERT

Impact-resistant ABS plastic with comfortable foam lining

ULTRA BRIGHT 48 LUMEN BUILT-IN LED LIGHTS

Improves vision close up, at a distance or in the dark for up to 30 hours

LOW-PROFILE HEAD PROTECTION

Guards against bumps, scrapes and bruises when working in cramped spaces

BREATHABLE

Flanged design maximises airflow for all-day wear

SKULLERZ
 HEAD + PROTECTION

8945F(x) Bump Cap Insert

- » **LIGHTWEIGHT HEAD PROTECTION** – Guards against bumps, scrapes and minor head injuries
- » **ENHANCED IMPACT PROTECTION** – Ribbed top improves top-of-head protection by up to 35%
- » **MAXIMUM BREATHABILITY** – All-over venting enhances airflow to keep wearers cool
- » **DURABLE POLYETHYLENE** – Impact-resistant insert
- » **FITS ANY HAT** – Patented “trim-to-fit” design
- » **ADAPTABLE** – Two-way flex design for non-bulky protection
- » **TOP-OF-HEAD PADDING** – Extra-large closed cell foam reduces impact without absorbing odors

Introducing the **Skullerz 8945F(x) Universal Bump Cap Insert** with extra venting. This next-gen insert offers up to 35% more crown impact protection and improved breathability. It easily fits into hats for protection against minor head injuries. The lightweight, durable polyethylene shell with ribbed top provides strong impact protection, and all-over venting ensures comfort. An interior foam pad minimises impact and odors for all-day freshness. Bump caps, not as bulky as traditional hard hats, are perfect for tight, confined spaces where head-knocking hazards occur.
