HYDRATION ACCESSORIES

Hydration That Works®

Sqwincher® 115L Freezer

The Sqwincher® Sqweeze® 115L Chest Freezer is a dedicated on-site storage solution designed to keep Sqwincher® Sqweeze® Pops frozen, visible and ready to serve when workers need them most.

With a generous 115L capacity, the freezer can accommodate up to 500 Sqwincher® Sqweeze® Pops, making it well suited to busy workplaces, large crews and high-demand environments. Also ideal for activating & storing 6210 Phase Change Cooling Vests.

The clear see-through lid allows for quick product visibility while helping teams easily monitor stock levels throughout the day.

Designed with efficiency and reliability in mind, the freezer features a 4-star freezer rating, ETL certification and an N climate class, suitable for ambient temperatures between +16°C and +32°C.

Whether positioned in a workplace lunchroom, site facility or designated hydration station, the Sqwincher® Sqweeze® 115L Chest Freezer provides a practical way to keep frozen hydration products conveniently available and at the ideal serving temperature.
