HYDRATION

HOW TO GUIDE / SLUSHY MAKER

Precision Controls

BEFORE FIRST USE

1. Clean the bowl with warm soapy water.
2. Rinse bowl with clean water.
3. Wipe down lid and mixing shaft with warm soapy water (do not submerge lid in water).
4. Wipe down lid and mixing shaft with clean water (do not submerge lid in water).
5. Replace bowl on machine:
 - 5a. Ensuring the bowl is correctly positioned over the sealing ring at the back of the bowl.
 - 5b. Ensuring the bowl is clipped in at the front of the machine.
6. Fill the bowl with water to the minimum water level.
7. Turn the machine on and set to mix for 5 minutes.
8. Turn off the machine and empty the bowl.
9. Begin filling as per the how-to guide.
